**Subject:** Notice of Change Prison Point NPDES OWS

Hi Undine- I hope you are well.

I was informed that there are some changes to the Prison Point Oil Water Separator. I have been working with Janis from MBTA (copied here) on investigating with North Point Properties of changes at Prison Point. I don't have details at this time, but wanted to let you know before I left on vacation.

Important to note, the changes to the OWS at Prison point is not anticipated to affect the monitoring and sampling process. I will reach out to you with more information and to request a meeting to further discuss in person with Janis if that is the path you recommend upon my return.

I will be back on 4/22/19.

Thank you in advance for your accustomed diligence and forwarding this message to any other that require notice.

Regards,

**KEOLIS**
